HOOPER CONFERRING WITH PRESIDENT HARDIN

GOVERNMENT PLAN FOR 'POOLING' COAL WILL BE TAKEN UP AT HOOVER PARLEY

Operators Gather At Capital Monday To Discuss Situation In Industry

3 DEPARTMENTS OF GOVERNMENT AIDING

Scheme, Hoover Announces, Now Before the Department Of Justice

(By International News Service.)

WASHINGTON, July 22.—A government plan for the pooling of coal in the mine districts and the distribution of cars to carry it will be considered by the conference of coal operators, called to meet in Washington next Monday, Secretary of Commerce Hoover announced today.

Plans for distributing coal to railways, public utilities, to industries producing necessities and to public institutions, will be considered at the conference it was announced.

The call was issued to district representatives of the producing districts in Pennsylvania, West Virginia, Alabama, Kentucky and Tennessee.

Secretary Hoover announced today that plans have been formulated for the co-operation of the Department of Commerce, the Interstate Commerce Commission and the Department of Justice, by which the co-operation of responsible operators, the control of prices and distribution of the commodity can be effected.

The plan, Hoover said, now is before the Department of Justice. It provides for the pooling of coal in each district and distribution of cars under the authority and direction of the government with the co-operation of operators' committees. The conference also will consider plans for making the voluntary restraint of profiteering effective in the districts which have refused to co-operate and which are demanding \$7.50 a ton at the mines.

An effort will be made, Hoover said, to make the plant effective against the minority of irresponsible operators in other districts who have broken away from the agreement.

DEMAND INCREASES

(By Associated Press.)

LONDON, July 22.—The demand for ships to convey coal to America is increasing daily, many steamers being loaded in the United Kingdom this week for sailing to various American ports, the freight rate being eight to ten shillings per ton.

CONFERENCE PLANNED.

(By Associated Press.)

WASHINGTON, July 22.—In an effort to bring about resumption of operations in the anthracite fields, a conference, in which John L. Lewis, head of the miners' union, is expected to participate, will be held Monday, either in Scranton or New York, Mayor Durkan, of Scranton, announced today after he had conferred with President Harding regarding the situation.

COTTON CROP IS STILL LOOKING GOOD

Good reassuring news continues to filter in from the outlying districts over the appearance of the cotton crop, and the hope is entertained that the weevil, under the modern methods which have been used for its extermination the present season, has been held in check sufficiently to allow a fair crop to mature before the second crop comes on. Many planters have stated to a reporter of The Daily during the last few days that the fruit is hastening to maturity, and that the fields abound in blooms, and in many instances grown bolls are being seen on many plants. The weather for the past week has been especially fine for the fast growth of the plant and the fruit, as there has been plenty of moisture, and the days have been hot. Several have stated that the old weevils have completely disappeared from the fields, and some are of the opinion that the damage done so far over the country does not compare with the amount done last season, at this same time of the season. Corn which was slow in getting off is now showing up well, and it is the opinion that the country will make a fair crop of corn also. Much of it now is in silk and tassel, and plenty of moisture abounds to hasten the growth and make good full ears. Everything is continuing satisfactory, is the opinion expressed by farmers from different sections of the country whenever the question is asked about crop and conditions prevailing.

Railroad Officials As Strikebreakers.

RAILROAD OFFICIALS IN OVERALLS

These officers and clerks of the Chicago, Milwaukee & St. Paul Railroad are doing duty as shopmen and car cleaners during the strike of the shopmen. The photograph was made in the Chicago yards, where the "workmen" are shown eating in a Pullman diner their "three squares" a day from a bill of fare fit for a king.

SEVEN KILLED WHEN FAST TRAIN WRECKS ON AN OPEN SWITCH

(International News Service.)

SPRINGFIELD, Mo., July 22.—Seven persons were killed early today when the "Meteor Express" of the St. Louis & San Francisco Railroad ran into an open switch at Logan and crashed head-on into the combined "Katy" and "Frisco" special No. 2, which was standing on a siding.

More than 40 were injured, several probably fatally. The dead are: H. R. Hine, engineer.

Neely, fireman.

A man and three children all of one family, all as yet unidentified.

The "Meteor," bound from San Antonio to St. Louis, was running about 45 miles an hour when it struck the open switch and was behind schedule time. Both locomotives were demolished and the track strewn with wreckage.

Most of the injured passengers were occupants of two chair cars on train No. 2, which were telescoped.

Members of the family which were killed were seated in the front seats of the chair car. The mail and baggage car of the "Meteor" were wrecked and it was believed the clerks had sustained fatal injuries.

MONTGOMERY FILES BID FOR THE SHOPS

(Montgomery Bureau, Albany-Decatur Daily.)

MONTGOMERY, Ala., July 22.—Montgomery has filed a bid with the Louisville & Nashville Railroad for the railroad shops now located at Albany. This fact became known today in the publication of a statement quoting "a high official of the railroad," who said the railroad's announcement that the shops would be moved from Albany if adequate protection was not afforded during the strike was not idle bluff.

This statement said the railroad employs about 90 per cent of the people of Albany, that the town has only five policemen and that there are now about two thousand strikers. This official said little protection was given the property until the state took a hand and that picketing was general. Since the state took charge of the situation, according to the statement, open picketing has ceased, but information bureaus and cold drink stands have been erected which serve the purpose of the picketers, according to the declaration.

SHIPS INVOLVED IN PROHIBITION FIGHT

(By Associated Press.)

NEW YORK, July 22.—Fifteen British ships, alleged to have been supplying American rum runners' crafts, were made the subject of international briefs, according to John D. Appleby, general chief enforcement agent of the New York prohibition officers. The briefs have been forwarded to Secretary Hughes, Appleby said, and if considered of sufficient importance will be taken up with members of the British embassy.

IMPORTED WORKERS KICK AT GRUB AND START YOUNG 'RIOT'

(By International News Service.)

WASHINGTON, July 22.—Violence in the railroad strike occurred today almost in the shadow of the dome of the capitol.

Strikebreakers, imported from New York to work in the North Carolina Air Line, kicking accommodations provided for them, on a company officer, who had the best in tow.

A special detail of police was called out to quell the disturbance and the strikebreakers were loaded on a train and sent back to New York.

MANY CANDIDATES ARE AT VALHERMOSA

The mecca for all the county candidates today is at Valhermosa Springs, where a big barbecue and picnic is being held. Practically every candidate before the county primary election is there to meet the large number of voters who will avail themselves of the opportunity to be present. This occasion will be the last one afforded the candidates to attend a picnic before the date of the primary, as the county itinerary over the county by all the candidates will be begun Monday, when they will speak in every precinct between that date and the primary. As the date of the primary election draws nearer the interest in the campaign seems to center around the races being made for Congress and the Legislature. Guesses are now freely being indulged in, and straw votes are being taken whenever the matter is broached and suggestion for a straw vote made. With the election just two weeks away, county politics is due to wax warm the few remaining days of the campaign.

All the officials at the courthouse who are candidates for re-election, with the exception of Sheriff J. V. May, availed themselves of the opportunity today to attend the picnic and barbecue being given at Valhermosa. With the exception of the sheriff's office, there is no rush of business, and the opportunity was taken by these gentlemen in order to see a large number of voters all in one place. A genuine handshaking campaign is due to take place today in East Morgan.

Railroad Rates Are Cut For Meeting

AUBURN, Ala., July 22.—Special.—Special low rate round-trip tickets for the benefit of those who attend Farmers' Week here July 24-29, will be sold by all railroads operating in Alabama. Announcement to this effect was made today by Prof. L. N. Duncan, director of the Extension Service, who states that these rates were secured by M. M. Caskie, manager of the traffic department of the Alabama Farm Bureau Federation.

According to Mr. Caskie, the special rate will be one and one-half fares for the round trip. Tickets will be on sale on July 23-24 and good on the return until July 30.

Previous reports had already indicated a large attendance in Auburn next week, and the low railroad rates are expected to greatly increase the attendance.

ALBANY'S BUSINESS MEN HEAR SEVERAL LABOR CHIEFS TELL THEIR SIDE OF CASE

Meeting Held This Morning In The Chamber of Commerce Rooms

ANTI-PICKETING LAWS EXPLAINED IN DETAIL

Speakers Also Take Up Statements About Number Of Men Working

Quite a large crowd assembled in the Albany Chamber of Commerce rooms at 10 o'clock this morning, where E. G. Cherry, S. E. Roper, W. H. Wilson, J. E. Blair and Albert Dunnavent were the regularly assigned speakers to present to the business men the status of the present strike situation.

C. D. Patterson, president of the Chamber of Commerce, called the meeting to order, making a fitting address, which was cheered heartily.

E. G. Cherry, chairman of the federated shop crafts, was cheered when he completed his speech, as were all the other regularly assigned speakers.

Mr. Cherry said that he regretted that the business men had been drawn into the present controversy, and but for the fact that Mr. Evans of the L. & N. System had asked meetings of the business men, the shopmen and their associates would not have appeared before them.

"You need not be discouraged as to the outcome of this strike," said Mr. Cherry. "Mr. Cherry explained that a union card must mean payments of all obligations by those who hold them or else they would be dealt with by their unions. This speaker, who denounced any individual members who had expressed hostile or improper sentiments apropos of the talk about removing the local shops. "I wish to offset statements made about loaded cars," said Cherry, "and my information is that there are near a thousand loaded cars in and around the local shops."

Mr. Cherry also disputed claims as to the number of men at the shops, and said that there might be as many as said of all classes, but that his information was positive that the original statement of S. E. Roper, as made public a few days ago, was correct.

S. E. Roper Second Speaker.

S. E. Roper was the second speaker, regularly assigned. He said a great many things, all of them being in most cases direct and flat denials of statements being made by railroad officials. He said that in the first place three Eastern roads were the only ones that were denying seniority rights. He asked the business men would they not look for themselves and see as to loaded cars; and he said that his claim as to men at the shops especially as regarded "so-called mechanics" stood unchallenged. Roper told of the picketing laws from a national standpoint, and about agreements reached as to their application. He declared that the president of the L. & N. railroad had agreed that the strike on the L. & N. was effective, and that he assumed that other spokesmen purporting to speak for the road only expressed their own opinion. While Mr. Roper was speaking, J. Ben Garrett, of the carmen, presented him a list showing that there were over 1,100 loaded cars at or near the local shops. Mr. Roper said that the only way to prevent his getting authentic information out of the shops would be for it to be sealed up tight and no one allowed to go in and out.

"I say to you we have won the points concerning seniority rights," declared this speaker; "and as the papers say the original points we contended for have been generally agreed to." He declared that the southeast division of railroad and other divisions would win over the General Managers' Association, of which the L. & N. is a member, and that the strike already won by the men would be terminated satisfactorily to all concerned. Mr. Roper took the same stand as did E. G. Cherry, as regards the freedom of merchants to do as they liked as to their own business and claimed the same right, without unfriendly advice "for the business men, so-called mechanics and laborers."

W. H. Wilson, boilermaker, speaks. W. H. Wilson, general chairman of the boilermakers, took the same stand as did the other regularly assigned speakers in regard to the relation of business men and the workers and consumed most of his time with reading the Clayton law, which he said was supreme over the whole nation and made so by decision of Judge Taft, in regard to picketing.

J. E. Blair said he was glad the "picketing" question came up. As the lack of it had kept him constantly explaining himself for the last 15 years, "Hundreds of unhappy moments," said this speaker, had been caused

Men's Statement Says Meet Today Featured By Enthusiasm

The following official statement was issued today by H. C. Hutchison, chairman of the press committee, of the federated crafts:

The usual theater meeting of the rail strikers opened with prayer by J. H. Clift this morning at 9 o'clock. Sick and relief committee reported some new cases, with general improvement. Two were reported as being nearly well and expected to be in the meeting Monday. The Publicity Committee read a number of encouraging reports, especially from strike bulletin No. 3. Much enthusiasm was aroused by the following public statement as made by Rev. Father Delanty, of Bay City, Michigan: "I say that no Catholic, but no Protestant or Jew or any one else who wants to be an upright man will ever, in the face of his fellows, degrade his honor thus." Rev. Delanty had reference according to the bulletin, to a line on page 6 of bulletin No. 3.

GIRL STILL SILENT IN SHOOTING CASE

(Montgomery Bureau, Albany-Decatur Daily.)

MONTGOMERY, Ala., July 22.—Mildred Willis Brewer, 15 years old, granddaughter of the late Col. Willis Brewer, former Congressman of the Second Alabama District, who calmly stopped at the police station Thursday afternoon and announced that the body of Portis McKeithen, prominent young man of Montgomery, might be found at a certain spot on the Hayneville road and that she would answer for the killing, gave way to her emotions in the county jail Friday and declined to amplify her story.

The girl was questioned by court officials, but refused further information than her first statement that "I killed him." Sheriff J. L. Scogin declared that no details had been obtained by sheriff's forces regarding the killing other than the physical facts developed by the finding of McKeithen's body in a clump of bushes about 150 yards from the main highway.

WASHINGTON, July 22.—Chairman Ben Hoover here today in response to a demand from the White House went into conference with President Harding, preparing the executive a complete survey of the situation of the railroad strike and the recent negotiations, conducted with a view to about a settlement.

(By International News Service.)

WASHINGTON, July 22.—The arrival here today of Hoover, chairman of the government, the determining factor in the economic chaos, will be when the chairman capital this morning was confronted with conditions:

Railway service through the country, through the shortage of coal, is at a point where it is a threat to the national welfare. Settlement of the coal shortage and firm the executive seems to be because of the group of Eastern railroads. Coal prices and necessities are beginning to accompany to the industrial situation.

THREE SERVICES AT METHODIST CHURCH SUNDAY

HARTSELLE, Ala., July 22.—Sunday, the last day of the meeting which is being conducted at the Methodist Church, will be the last day of the services, and is to be a very busy day according to Evangelist G. C. Guice, he made the announcements Friday evening. There are to be three services at the church Sunday. The 11 o'clock service, again a great mass meeting of all the religious denominations of the city will be held at 3:30 o'clock, the final service of the series being at 7:45 p. m. An overflow audience was again in evidence at Friday evening service. At 3 o'clock today a street service is to be held at the Stewart corner in the downtown district. These services are held each afternoon, and are attended by more than a hundred people. Songs and prayer feature these services, and a short evangelistic address is made by the evangelist. The meetings throughout the series have been largely attended, and the preaching has been of the kind that grips and holds. Much genuine good has been done, and many have already united with the church as a result. The closing day is counted on for a great gathering of new converts.

Howard Kent, who for several years was connected with the People's Drug Co., here, is now at Petersburg, Fla., engaged in the real estate business. He surprised his many friends here Friday afternoon by suddenly making his appearance among them. He was at Birmingham on some business for his company, and took occasion to make the trip home to spend a short time. He returned today.

The meeting at the holiness camp ground began Friday evening and will continue for 10 days. The camp ground is located 1 mile due south of Hartselle. A large number of campers annually avail themselves of the opportunity to attend these services.

PERSONALS

Frank P. Morgan, from all over Alabama, and a candidate for a place on the Alabama Public Service Commission, was here yesterday putting his case before the jury. He's an old (?) traveling man with a head full of common sense. Mr. Morgan looks like a winner and if as successful at other points as he is here in meeting the people pleasantly and impressing them with his earnestness in their service, he will probably poll a vote at the coming election that will land him in column No. 1.

C. C. Osborne of Mooresville is in the Twin Cities today.

COTTON MARKET.

(By International News Service.) NEW YORK, July 22.—The cotton market opened easier, unchanged to 15 points lower today. Selling was influenced by prospects for cooler weather in the southwest, following the recent hot spell in that section. The South, New Orleans and Wall Street interests sold, but there was a little week-end covering which absorbed the offerings.

Hartselle News

An important undertaking is in the process of fulfillment which will give to Hartselle sanitary toilets. Dr. B. F. Austin, county health officer, has been conducting a campaign here for some time in the hope of interesting the citizenship and the board of aldermen in the advisability of such construction. Many of the citizens have signified their willingness to make the necessary installations, and it is understood that the board is committed to a similar procedure. It is very probable that the necessary legal formalities will be complied with in a very short time and the work begin. With the continued growth of the population, the open toilet has become a menace to the general health, and better means have been advised and will be installed without doubt.

Mrs. Mattie Parker, of Texas, is a visitor to her many friends and relatives here. Mrs. Parker is the widow of James F. Parker and for many years made their home here. After Mr. Parker's death she went west to live with her son, Dr. Frank Parker.

Dunbar Boger, of Tampa, Fla., is home on a vacation. Dunbar went to the land of flowers several years ago and has been special representative in that city for Messrs. Eli, Lilly & Co. Dunbar has many friends here who are mighty glad to see his genial countenance again.

Dr. B. F. Austin is conducting a health campaign in the far eastern part of the county, in a typhoid inoculation campaign. He is authority for the statement that the people of the rural districts are responding in a most worthy manner to this edict of modern prophylaxis, as 600 to 1,000 persons are taking the inoculation each week. The measure is not taken because there is an epidemic of this disease anywhere extant in the county, but on the contrary is taken as a means of precaution. He will continue the campaign until every district in the county has received this beneficial measure.

A large number of the citizens of this place availed themselves of the opportunity to attend the picnic which is being given at the James F. Cain place today, several miles northeast of here. This is an annual occasion at the Cain farm, and is always a most enjoyable occasion.

Miss Preston, who last term was teacher in the grammar school here, is on a visit of several days to her friends at this place. Miss Preston occupies a warm place in the minds of the patrons of the school, as she was a most efficient and painstaking teacher.

Miss Robinson, who last term was an instructor in the Morgan County High School, is spending a few days with friends at this place.

The Hartselle baseball team will not play any games until next week, when they will be away from home for six days, having three games with Cullman and three with Elktion, Tenn. The following week they will

meet Cullman on the home and there will probably be three games with Huntsville. One of the team are playing at Elktion, Tenn., team the remain this week in a series of game Huntsville.

The meeting at the Methodist Church, which is nearing a two-run, is continuing with unabated interest. Splendid attendance marked each service, the church being taxed to the utmost to accommodate the attendance. Evangelist, Mr. Norman Guice, lighting the large audiences tend from day to day, and his are meeting with splendid success. Many have already signified intention of beginning a new church has been greatly aided and built up. A service held each afternoon in the town section, which is growing, interest, a hundred or more each evening.

WORK STARTS SOON ON ROOSTER BRIDGE

(Montgomery Bureau Albany-Decatur Daily.)
MONTGOMERY, Ala., July 22.—Construction work will be started at once on the famous "rooster" bridge across the Tombigbee River at Moscow, Marengo County, on the Dixie-Overland highway as a result of the opening of bids by the state highway department today. Doullut and Williams of New Orleans were low bidders with a proposal of \$215,000 and will be awarded the contract at the next meeting of the state highway commission.

The bridge will be of steel and concrete and will be modern in all respects. The lack of a bridge across the river at this point has held back the development of the Dixie-Overland highway.

International interest was created in this bridge in 1919 when an auction of roosters was held at Demopolis to raise money for the project. Since that time the bridge has been called the "rooster" bridge. The legislature of Alabama attended the auction on a special train. Among roosters auctioned for high prices were four named President Wilson, Premier Lloyd-George, Premier Clemenceau and Premier Orlando.

The Vaughn-Davis Construction Company of Montgomery was low bidder on the Macon County road project, which involves the construction of a gravel road from the Montgomery county line to Tuskegee. The bid of this company was \$157,897.98 for a road 20 1-2 miles in length. W. D. Owens, of Pelahatchie, Miss., was low bidder for the bridge work on the road, his bid being \$59,507.11.

When the road is completed there will be an excellent highway from Montgomery to Tuskegee, the seat of the famous institution established by Booker T. Washington.

Health Lecture At Lyceum Theater

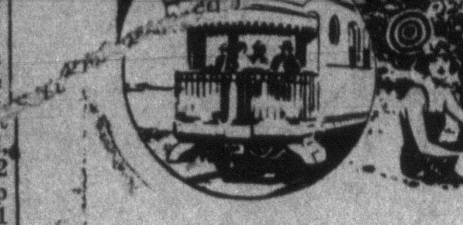

Dr. R. B. Stewart, United States Public Health Service, co-operating with the State Board of Health, will show moving picture films and will lecture to colored women only at the Lyceum Theatre, Decatur, tomorrow (Sunday) at 3 p. m. sharp.

Lecture and films for men only at 4 p. m. Admittance free.

These lectures and films deal with social hygiene and venereal diseases, and are of great importance, educationally, to all.

Dr. Stewart has had the co-operation of the health officers and physicians in all the towns visited in the state, and the people have been decidedly benefited by hearing the lectures.

N. E. Cashin, L. N. and J. J. Sykes have made arrangements for these lectures. All are welcome.

GOING AWAY?

Vacation time is here! The summer exodus is on! All America, young and old, is off to the lakes, the mountains or the sea.

No matter how far you journey, you will find a Bell Telephone at the other end. Don't overlook the fact that you can pass to those at home a goodly amount of pleasure by keeping in touch with them over long distance.

They will enjoy frequent reports of your pleasurable adventures. By taking advantage of the reduced "evening" and "night" rates on station-to-station calls, you can minimize the cost.

Don't overlook this feature of your vacation.

Long distance calls are inexpensive.

TAKE NEW TURN

(By Associated Press.)
CHICAGO, July 22.—As the railroad strike today entered the fourth week, the negotiations took a new turn and expectancy turned to Washington, where Chairman Hooper was called for a conference with the President and to discuss efforts of six leading railroads to make a separate peace with their striking shopmen.

Reports from half a dozen cities that about 18,000 clerks and other employees had voted to walkout, with new indications of Canada facing a shopmen's strike, added to the war talk.

Albany's Business Men Hear Labor

(Continued from page 1.)

him because of lack of picketing. If the issues of the strike about 15 years ago had been presented to him when he first went to work for the railroad, he would have been saved a lot of unhappiness. He asked to be allowed to make a personal statement in lieu of the many statements he had made for others in the last dozen years, and said: "Nobody warned me that I was taking the place of a man on strike in 1907, and I boarded out on Fourth Avenue South. It was weeks and months before the facts in the case were realized by me, when I saw it was too late to turn back. I determined to stay and fight it out. Not until my theatre speech Saturday afternoon has it seemed to me that I convinced my fellows that I was for them absolutely."

He said that when in the so-called "Men and Religion Movement" he heard Dr. James I. Vance explain the struggle of working men and how he, Dr. Vance, said if he were a working man he would be a union man—that then came a still fuller realization of his duties to his fellow workers.

In justification of his pure intentions all along, Blair stated that it was a fact and a matter of record in the Alabama Four Minute Speakers history, he had refused to quote his employer in a newspaper interview as opposing child labor reform laws in 1902, when he knew it meant that at least one door of promotion was closed to him by such a refusal. This speaker then took up as much time as he dared, in presenting the issues involved in the present strike and called attention to his "real efforts" as he called them to promote justice both to the men and the railroad company in the last few years—"with malice toward none, and with love for all," as he expressed it.

Albert Dunnivent was the last regularly assigned speaker. He read a letter said to be from the chairman of the national organization of railroad foremen, in which he and the other local members were advised that their membership was to do only their regularly assigned duties. He declared that, while the L. & N. Railroad had never recognized his union, that the railroad labor boards' decision not requiring members of his organization to do other things than their foreman duties was not adhered to by the local officials and that he was told to work or go home, which he did. Mr. Dunnivent spoke at some length in support of the claims of the strikers.

Chairman Patterson, according to custom, allowed any others to speak who desired to, the following availing themselves of the privilege: W. E. Sibley, John W. Knight, L. E. Huie and Judge S. L. Cook.

Amusement

Eaine Hammerstein in a new Selznick picture, "Why Announce Your Marriage?" is announced as the featured attraction at the Palace Theatre Saturday. Unlike most of the pictures in which this charming star has recently appeared, "Why Announce Your Marriage?" is a comedy of the lighter type which is said to afford the star new opportunities of which she makes the most at all times.

The story deals with the determination of a young married couple to keep their wedding secret from their friends and public. In doing so they involve themselves in a mire of scandal that grows deeper and deeper all the while, finally resulting in a situation that threatens them both with lasting disgrace. Then, of course, the truth comes out and it is learned that their seeming indiscretions were but the natural deeds of a man and wife who considered their marriage of importance to themselves alone.

In the picture a notable supporting cast is seen with Niles Welch at its head. Arthur Housman and Florence Billings also have important parts and others in the cast are Frank Currier, Huntley Gordon, Marie Burke, Elizabeth Woodmere, James Harrison and George Lessey.

ROADS TO FIGHT.

MONTGOMERY, Ala., July 22.—Special.—A. G. Patterson, president of the Public Service Commission, returned from the Atlanta rate hearing today and announced that he was informed by commerce counsel of the railroads that the railroads would not permit the recent order of the public service commission for a reduction in passenger fares intrastate to become effective without a fight.

MALARIA CONTROL WORK PROGRESSES

MONTGOMERY, Ala., July 18.—Alabama's record in typhoid control is best illustrated by a comparison with the work done by the state of Louisiana, which, according to a recent issue of the New Orleans Times Picayune, shows a reduction from 38.95 per hundred thousand in 1917 to 17.73 in 1921, while the record for Alabama shows a reduction from 43.19 per hundred thousand in 1917 to 14.40 in 1921.

Of the work in Louisiana, the Times Picayune says: "Citizens of Louisiana have cause for gratification over this showing, as, in addition to the great saving represented in health and vitality since 1918, this reduction has meant the saving of more than 800 human lives."

If the citizens of Louisiana have cause to be grateful, the people of Alabama have more cause because of the reduction in this state represents the saving of more than 3,000 human lives.

The record for the two states in deaths per hundred thousand for the period covered by recent reports follows:

| Year. | Alabama | Louisiana |
|-------|---------|-----------|
| 1917 | 43.19 | |
| 1918 | 25.93 | 38.95 |
| 1919 | 14.14 | 22.34 |
| 1920 | 15.37 | 18.83 |
| 1921 | 14.40 | 17.73 |

There is no question but that had as large a percentage of the physicians and registrars made reports in 1917 as were reporting in 1921, the reduction showing would have been more startling.

Goodrich
announces
new tire prices
—lowest cost mileage ever known

Effective July 20th, Goodrich establishes a revised price list that is a base line of tire value. It gives the motorist the buying advantage of knowing that whatever size tire he selects is of the same quality—the Goodrich one-quality standard. It gives him the longest mileage, the most satisfactory service and the highest quality his money can buy. Results will prove that it is impossible to buy tire mileage at lower cost.

Think of being able to buy
